The evolution of the A140, the best ratio between performance and price that is available on the market.

Main characteristics:

- wide range of accessories
- the design and realisation of the new "ERGO" handle, with more notable extras than previous ones:
 - a better - balanced grip and handle lightening, which makes it notably less tiring
 - improved ergonomoy with a greater distance between the hand and the plasma arm, with consequent decreasing of exposure to heat
- the ball joint - Trafimet patent - which gives excellent flexibility at the connection point between the cable and the handle
- DOUBLE ELECTRICAL AND MECHANICAL SAFETY.
